Why NMSTE? Why not!

Explore the following and see if you agree!

- **Supporting** the use of technology in education
- **Promoting** and **encouraging** the appropriate use of information technologies **to improve the quality of education**
- **Supporting** professionals (teachers, tech coordinators, curriculum coordinators, teacher educators, administrators, and others) in using technology
- **Encouraging** research and evaluation relating to the effective use of technology in education and **promoting** dissemination of such research
- **Providing** information to educational policy makers

- **Promoting** sharing of information and communication between professionals using information and/or instructional technologies
- **Cooperating** with manufacturers, publishers, and other private sector organizations to identify needs and appropriate standards for technology-related educational systems, products and services throughout the state
- **Facilitating** achievement of all of the above through local professional development opportunities, NECC and other conferences, workshops, seminars, publications and development of other materials
